**Erratum to: Magn Reson Mater Phy**  
**DOI:10.1007/s10334-011-0246-y**

Due to an error in printing style of a footnote index, the indication of a limiting condition after Eq. 16 was misleading.

The sentence should read:

Note that the indices should fulfill the conditions  $D \geq 2$  and  $E + F + G \geq 2^2$  in order to justify using these patterns, otherwise, they can be replaced by simpler forms.

With <sup>2</sup> referring to footnote 2.

<sup>2</sup> Not all entity types have to be present. For missing entities, the corresponding maximum index is symbolically set to 0 and the term eliminated from the summation.
